

Coffee Packaging Bags

Printed pouches | flexible packaging manufacturer

I. About coffee packaging

Coffee packaging are normally in style of printed stand up pouches, side gusset bags, block bottom bag and 3 side seal bag.

Among all formats, side gusset and block bottom bags are most popular. As many clients like coffee bean roasters, coffee bean plant farms, coffee shop retailers prefer these well designed printed coffee bags.

Apart from tin tie, pull tab zipper, normal zipper can be added according to your needs.

Besides, one more important feature of coffee packaging bags is that they can have a one-way degassing valve for the roasted beans to breath in the packagings and stay fresh.

In addition, about the most used coffee packaging materials, we have options of kraft paper and plastic foil lining films. Normally kraft paper bags offer more organic and natural outlooking while plastic materials are able to present more rich and colorful images. So for different branding location, we suggest different material structures.

At last, we need to mention that pure aluminum films are also often applied in the packaging bags for a better light proof lining.

Any way, feel free to check with us on the coffee packaging bags and we would love to share we know with you.

1.1 MAIN MATERIALS

- MOPP
- OPP
- PET
- VMPET
- LDPE
- ALUMINUM
- NYLON

1.2 DESIGN ACCESSORIES

- Round corners
- Zip lock
- Hang hole
- Tear notches
- Window
- Childproof locking

- Valve

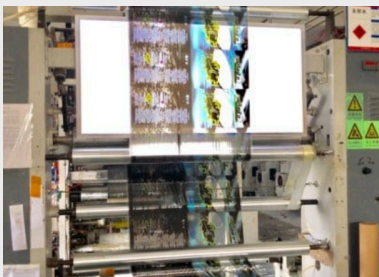

2.1 Digital printing

Digital printing allows MOQ to be 200 to 500 bags as a start. Very widely applied while trial orders or startups needed.

No color limits, no plates needed, swift delivery time in 10 days.

2.2 Gravure printing

Gravure plate printing normally requires a MOQ of 5000 to 10000 bags. Especially preferred when clients want to settle down a long term design and save long term packaging cost significantly.

One plate for one color per design.

Including making plates, normal lead time is 15-25 days.

2. Printed pouches manufacturer

As a printed pouches manufacturer, our production scope includes coffee packaging bags and pouches. And we have been supplying the custom packaging bags for years

In our facility, we are equipped with:
