

Pillow pouches

Printed pouches | flexible packaging manufacturer

I. About pillow pouches

Pillow pouches have no sealing on the front side. Thus it helps ensure the complete graphic or image on the front side of the package. Hence it is good looking.

Also since the seal is on the back side, the other sides of the bag are complete and can withstand more pressure, reducing the possibility of breakage and damage.

Pillow pouches are also named as back seal pouch or center seal pouch. Normally for different applications, we have different films structure to cater. Hence a long product shelf life can be achieved.

Above all, pillow pouches are widely used in below industries:

- Snack, chips and candy
- Spices and condiments
- Facial masks
- Liquid and powder supplement
- Toiletry products like detergent
- Toys

| 18 x 30 cm | 760 g |
| 20 x 30 cm | 950 g |

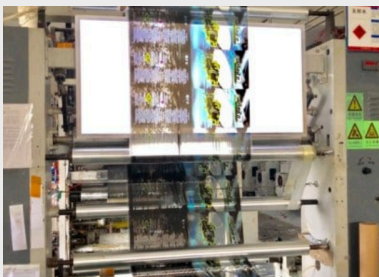

2.1 Digital printing

Digital printing allows MOQ to be 200 to 500 bags as a start. Very widely applied while trial orders or startups needed.

No color limits, no plates needed, swift delivery time in 10 days.

2.2 Gravure printing

Gravure plate printing normally requires a MOQ of 5000 to 10000 bags. Especially preferred when clients want to settle down a long term design and save long term packaging cost significantly.

One plate for one color per design.

Including making plates, normal lead time is 15-25 days.

2. Printed pouch manufacturer

As a professional custom printed pillow pouches manufacturer in China. We have been supplying this packaging bags for years.
