

Superfoods Packaging Bags

Printed pouches | flexible packaging manufacturer

I. About superfoods packaging bags

Superfood packaging bags are normally in style of stand up pouch, side gusset bag, block bottom bag and three side seal bag.

Among all formats, printed stand up pouches and block bottom bags are most popular. As many clients like food product supplier, plant farms, Amazon retailers prefer these well designed printed superfood bags.

Even more, apart from tin tie, pull tab zipper, normal zipper, hang hole are optional to your needs. The custom bags deliver great performance to pack chia seeds, maca powder, spirulina powder, granola and more...

Regarding superfood packaging most used materials, we have options of kraft paper and plastic foil lining films. Normally kraft paper bags offer more organic and natural outlook while plastic materials are able to present more rich and colorful images. So for different branding location, we suggest different material structures.

As a professional printed pouches manufacturer in China, Gozeniths offer custom bags and pouches for all types of superfoods products. We use FDA approved food grade BPA free plastic films as raw materials. What's more, equipped with both plate printing and digital printing, we are able to offer to big or small orders.

In addition, you are welcome to get free samples and try with your products. Then you can determine the dimensions and features you like. After that, feedback us your preferred designs and we will take care of the rest. Do not hesitate to contact us in case of need, we will get back to you in 12 hours.

1.1 MAIN MATERIALS
