

Whey Protein Packaging Bags

Printed pouches | flexible packaging manufacturer

I. About whey protein packaging bags

Whey protein packaging bags are normally in style of stand up pouch, block bottom bag and three side seal sachet bag. Among all formats, stand up pouch and block bottom bags are most popular.

As many clients like supplement products suppliers, body building agents, gym retailers prefer these well designed printed whey protein packaging bags. Even more, normal zipper or pull tab are optional to your needs.

Regarding whey protein packaging bags most used materials, we have options of kraft paper and plastic foil lining films. Normally kraft paper bags offer more organic and natural outlooking while plastic materials are able to present more rich and colorful images. So for different branding location, we suggest different material structures.

Most noteworthy, pure aluminum are often used as lining film in whey packaging bags. For the reason that pure aluminum has better light barrier property. Of course, foil lining can be also used as light barrier and works good. So the options can be personalized based on your project details and budget plans.

1.1 MAIN MATERIALS

- MOPP
- OPP
- PET
- VMPET
- LDPE
- ALUMINUM
- NYLON

1.2 DESIGN ACCESSORIES

- Round corners
- Zip lock
- Hang hole
- Tear notches
- Window
- Childproof locking
- Spout
- Valve

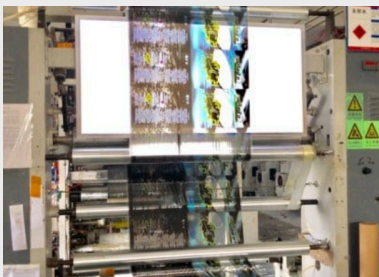

2.1 Digital printing

Digital printing allows MOQ to be 200 to 500 bags as a start. Very widely applied while trial orders or startups needed.

No color limits, no plates needed, swift delivery time in 10 days.

2.2 Gravure printing

Gravure plate printing normally requires a MOQ of 5000 to 10000 bags. Especially preferred when clients want to settle down a long term design and save long term packaging cost significantly.

One plate for one color per design.

Including making plates, normal lead time is 15-25 days.

2. Printed pouches manufacturer

As a printed pouches manufacturer, we have been supplying the custom packaging bags for years

In our facility, we are equipped with:

- 2 gravure printing lines and 1 digital printing line
- 2 laminating lines
